

Environmental Policy Statement

IMB Construction Ltd is committed to undertaking its business in a manner that recognizes the importance of environmental protection and sustainability. It attempts to achieve “industry best” practices in all its operation by:

- Complying with all applicable laws, regulations and statutory requirements relating to environmental issues
- Managing environmental and related issues in accordance with any client requirements, policies and procedures
- Applying waste minimization principles and taking all practicable steps to prevent pollution and other adverse effects from our operations
- Establishing, monitoring and auditing an environmental management system that is consistent with the NZCF Civil Construction Management Code and the certification requirements of ISO 14001
- Educating and training its employees to continually improve awareness, skills and knowledge of environmental issues and practices
- Identifying, investigating and satisfactorily resolving all non-conformances as part of a drive for continued improvement
- Monitoring and evaluating the quality performance of consultants, subcontractors and suppliers and implementing effective communicating with them on quality and non-conformance issues
- Annually reviewing quality objectives, targets and policy as part of a drive for continuous improvement
